11. Power contact

### IV. Features

1. Suitable for all types of vehicles.
2. LED display.
3. Supports QC3.0 fast charge output
4. Supports iPhone and iPad charging
5. Supports stereo FM transmission technology
6. Supports USB Drives for playing music
7. Supports Micro SD card for playing music
8. Supports WMA, MP3, WAV, APE, FLAC music formats
9. Automatic power off memory function
10. Supports Bluetooth A2DP, AVRCP, HFP, HSP
11. Bluetooth V5.0
12. Bluetooth hands-free calling
13. Supports Bluetooth stereo music DSP technology
14. Echo and Noise Reduction (CVC) technology
15. Battery voltage detection

### V. Operation Instructions

1. Plug the product into the vehicle cigarette lighter socket and it will be automatically powered with the LED flashing and displaying HI→Battery Voltage→BT→FM frequency
2. Turn on your car FM radio, and adjust the frequency of APBT210 to match your vehicles radio, Choose a frequency that is not being used.
3. Adjust FM frequency  
Long press ►► to enter state,  
Then press ◀◀ and ►► to adjust the frequency from the FM 87.5 to 108.0Mhz, three seconds without operation to exit the FM state.

### 4. Bluetooth Pairing

When connecting the APBT210 with a mobile phone for the first time, it may need a pin code to finish the connection, for more details, please refer to the relevant manual.

5. Please open Bluetooth on your mobile phone and search for the device "APBT210" from phone menu list.
6. Select the device "APBT210"
7. Once the device has successfully connected exit your Bluetooth settings on your phone.

### VI. Matching connection for additional devices

At boot time, the bluetooth car hands free will only automatically start connecting to the matching device that was connected last time.

Note: Some phones can be automatically connected when the bluetooth car is powered off after a power-free call. Some phones may need to grant permission for each connection. You can set it to "Automatically connect" For more information, please refer to the phone's user manual.

1. Use bluetooth hands-free calling  
(When your bluetooth hands free is idle or playing music)

### 2. Dial number

In the connected state, the phone number is directly dialed out by the mobile phone, and the sound is automatically sent through the cars audio speakers.

### 3. Answering the phone

In the connected state, when a call is made, press "☎" directly to answer the call. In the answering state, press the button ◀◀ or the button ►► to switch between bluetooth and the hands-free phone. Press the "☎" button again to hang up the phone.

### 4. Rejecting a call

When a call is coming through but you don't want to

answer it, press and hold the "☎" button to reject the call.

### 5. Redialing a call

When the bluetooth hands-free is idle at start-up, double pressing the "☎" button will redial the last phone number.

### 6. Play music stored in your phone.

This product supports A2DP function, and can play music stored on your mobile phone. The music is transmitted to the car audio system through Bluetooth.

### 7. Mobile music / TF / USB Drive

Long press the "☎" button to switch the mode: BT --- USB --- TF.

After connecting the bluetooth, select the song to play or insert the USB Drive to automatically read and play the music.

### 8. Siri / voice assistant function

After the bluetooth pairing connection, when you want to use the Siri/Voice Assistant, press and hold the ◀◀ button for 3 seconds to activate. (Supported mobile phone brands are: iPhone, Samsung, and Android system mobile phones). Note: Some phones do not support this feature.

### VII. Tech specification

Limit working voltage	10-26V
Power consumption	1W
Working temperature	0-50°C
Music format	MP3 / WMA / WAV / APE / FLAC

SNR	>60dB
Battery voltage display accuracy	±0.5V
Frequency response	20Hz-15Khz
Left and Right Channel	>60dB
bluetooth version	Version 5.0
bluetooth sound processing	DSP and A2DP (Advance Audio Distribution Profile)
FM Transmission distance	10M
Effective distance of bluetooth microphone	0.5-2 M
FM frequency	87.5-108MHz
Transmit FM mode	Stereo digital PLL lock frequency

### VIII. Notice

1. Do not turn the radio volume too high (usually 18 or below) to avoid the increase of the echo.
2. Although the transmission power of this product is relatively strong, better to skip the Frequency with strong signal in the local area to get a better sound quality.
3. Do not use the product in extremely high or low temperatures and in dusty, humid environments.
4. Avoid dropping the product to prevent damage to the surface or the body.
5. Do not disassemble the unit. If you have any questions, please contact your dealer.
6. Changes in product performance and functionality due to continuous improvement are subject to change without notice.
